

SITE ACCOMMODATION IN 20FT CONTAINER

SYNERGY
INNOVATIVE DIVING EQUIPMENT TRADING LLC

INSPIRING • ENGINEERING • INNOVATION

Our 20ft Accommodation Container is designed to provide safe, comfortable, and practical living quarters for personnel working in remote and demanding environments. Built from a standard ISO shipping container, this modular accommodation unit offers a durable and cost-effective solution for temporary or long-term workforce housing.

The container is engineered for rapid deployment and can be easily transported to construction sites, marine facilities, oil and gas projects, mining camps, and infrastructure developments where reliable on-site accommodation is essential.

KEY FEATURES:

- 2 x Single Cot Beds complete with mattresses.
- Air conditioning system for year-round comfort.
- Smart TV for entertainment and relaxation
- Sofa seating area for enhanced comfort
- LED lighting and conveniently located power outlets.
- Thermal and acoustic insulation.
- Durable interior wall and floor finishes.
- Lockable access doors and secure windows.
- Clean and practical interior layout.
- Portable and rapidly deployable design.

Synergy designed and manufactured a fully customized accommodation container that provides personnel with a safe, comfortable, and climate-controlled living environment. The unit is equipped with sleeping quarters, air conditioning, seating facilities, entertainment features, and electrical systems to support extended site deployments.

The interior layout has been optimized to maximize comfort while maintaining efficient use of space. Thermal insulation, durable finishes, and secure access systems ensure reliable performance in demanding industrial, marine, and remote project environments.

THE CHALLENGE:

Remote project locations often lack suitable accommodation facilities, requiring organisations to provide comfortable living spaces for personnel working extended shifts away from urban infrastructure.

The challenge was to create a compact yet functional accommodation unit that offers a comfortable living environment while maintaining portability, durability, and low maintenance requirements.

THE RESULT:

The completed Accommodation Container delivers a comfortable and functional living space for personnel working in remote locations. Its modular design enables rapid deployment while providing the essential amenities required for long-term occupancy.

By combining comfort, security, and mobility within a single containerized unit, the solution helps improve workforce welfare, morale, and operational efficiency on site.

Explore our custom accommodation containers & find the ideal solution for your workforce requirements.
