

# 20FT SHOWER & LAUNDRY CONTAINER

**SYNERGY**  
INNOVATIVE DIVING EQUIPMENT TRADING LLC

INDONESIA • SINGAPORE • MALAYSIA

The 20ft Shower & Laundry Container was developed to provide essential hygiene and laundry facilities for workforce accommodation in remote and offshore environments. Built from a modified ISO shipping container, it ensures clean, safe, and reliable sanitation services where permanent facilities are not available.

This unit is widely used in construction camps, oil & gas sites, marine projects, and industrial operations where large teams require continuous access to washing and laundry facilities.

## KEY FEATURES:

- Multiple shower cubicles with hot & cold water system.
- Industrial-grade washing machines and dryers.
- Separate wet and dry zones for hygiene control.
- Integrated wastewater collection tank mounted beneath the container
- Waterproof and anti-corrosion interior finishes.
- Efficient drainage and plumbing system.
- Ventilation system to manage humidity.
- LED lighting and electrical distribution panel.
- Durable steel structure suitable for harsh environments.

Synergy engineered a dual-purpose 20ft Shower & Laundry Container with separate wet and dry zones to ensure efficient workflow and hygiene control. The unit is equipped with shower cubicles, washing machines, dryers, and proper drainage systems.

The unit incorporates a fully integrated plumbing and drainage system, including an under-mounted wastewater collection tank, making it suitable for deployment in locations where permanent drainage infrastructure is unavailable.

## THE CHALLENGE:

Remote work sites often lack proper sanitation and laundry infrastructure, leading to challenges in maintaining workforce hygiene, comfort, and compliance with health standards.

The challenge was to design a compact, durable, and fully functional unit that integrates showering and laundry systems within a single 20ft container without compromising usability or hygiene standards.

## THE RESULT:

The completed Shower & Laundry Container provides a reliable, hygienic, and efficient sanitation solution for remote workforce accommodation. It significantly improves worker comfort, cleanliness, and overall site living conditions.

This portable unit ensures that essential hygiene facilities are available anywhere, regardless of infrastructure limitations.
