The Synergy Tool Basket is specifically designed to support commercial diving & ROV intervention operations from offshore support vessels. Built in accordance with DNV 2.7-3 requirements, the basket provides a safe & efficient solution for deploying and recovering tools, equipment, & small payloads in demanding offshore environments.

Manufactured with a compact footprint, marine-grade protective coating, & diver/ROV-friendly features, the basket is ideal for subsea intervention, inspection, maintenance, & repair operations. Integrated lifting padeyes, a bail arm spreader beam, and certified lifting arrangements ensure safe handling during offshore lifting operations.

ADVANTAGES:

- Strong and durable construction
- Safe lifting of tools and equipment
- Compact footprint for easy transportation
- High load carrying capacity
- Third-party inspected for quality assurance
- Suitable for harsh offshore environments
