ABOUT COMPANY

SYNERGY GROUP COMPANIES – ESTABLISHED IN 2008

Synergy Innovative Diving Equipment Trading LLC

Synergy Diving & Equipment Solutions FZC

With over a decade of experience in manufacturing commercial diving equipment, Synergy specializes in delivering systems built to **IMCA standards, ABS Marine Class specifications**, and certified under relevant **European Union directives**.

We are committed to providing high-quality, reliable equipment to diving contractors worldwide—offering **competitive pricing** and **industry-leading delivery times** without compromising on safety or compliance.

QUALITY CERTIFICATIONS

Certifications & Compliance

Synergy Innovative Diving Equipment Trading LLC is committed to delivering fully certified, safe, and high-quality diving systems, including Diving Decompression Chambers (DDC), Dive Control Containers, and Launch and Recovery Systems (LARS).

The company adheres to internationally recognized quality, safety, and environmental standards:

- **ISO 9001:2015** – Quality Management System (Certified by BQSR)
- **ISO 14001:2015** – Environmental Management System (Certified by AIAB)
- **ISO 45001:2018** – Occupational Health and Safety Management System (Certified by AIAB)

QUALITY CERTIFICATIONS

Certifications & Compliance

The design and manufacture of Synergy's systems—including DDC, Dive Control, and LARS—are compliant with relevant European directives, as confirmed by **CE Attestation of Conformity**:

- **Machinery Directive 2006/42/EC**
- **Low Voltage Directive 2014/35/EU**
- **Pressure Equipment Directive 2014/68/EU**

All systems are built to meet **ABS Marine Classification** standards in accordance with UWVS 2024, ensuring durability, safety, and regulatory compliance in marine environments.

Synergy Innovative Diving Equipment Trading LLC continues to uphold engineering excellence, offering integrated diving solutions that prioritize safety, operational efficiency, and long-term value.

IMCA CERTIFICATE

OUR CORE EXPERTISE

At **Synergy Innovative Diving Equipment Trading LLC**, we focus on delivering end-to-end solutions through **Four key phases**:

DESIGN

We design systems to meet client needs while complying with IMCA and classification society requirements. Our designs accommodate both IMCA standards and any specific class requirements.

MANUFACTURE

Fabrication meets client specifications, including class requirements and IMCA/ADCI standards. Systems can be bespoke or based on our proven designs.

SUPPLY

All systems undergo extensive in-house testing to ensure they meet client specifications and ISO 9001, 14001, and 45001 standards before delivery and installation.

MAINTENANCE

We focus on reducing equipment downtime with regular maintenance and support from our extensive spares inventory, ensuring minimal disruption and maximum reliability.

EQUIPMENT & MACHINERY

We have a well-equipped workshop and yards to support the fabrication, maintenance, and assembly of diving and industrial equipment. Below is a list of our key equipment, with corresponding photos:

LIST OF EQUIPMENTS

CNC Machine

- High-precision machining capabilities.
- Suitable for complex part production.

EQUIPMENT & MACHINERY

Lathe Machine

- For turning and shaping components.
- Ideal for cylindrical and custom parts.

Bench Drill & Cutting Machine

- Fixed-position drill for accurate
- Repeatable hole drilling in various metal components.

EQUIPMENT & MACHINERY

Plasma Cutting Machine

- Advanced cutting solution for a wide range of metals using plasma arc technology.

Plate Cutting Machine

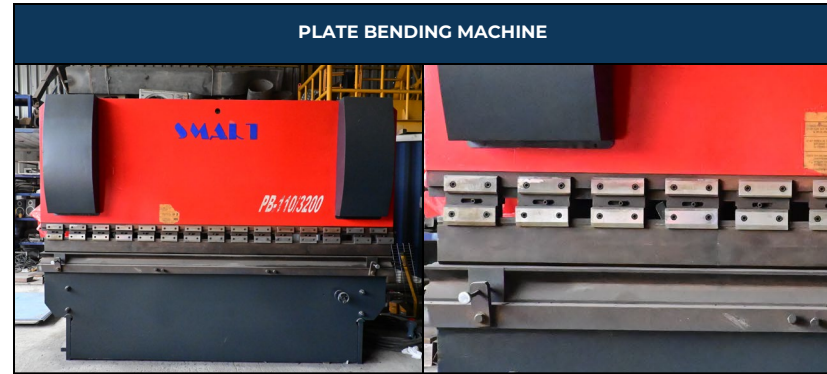

- Heavy-duty cutting of metal sheets, ideal for base frames, panels, and structures.

EQUIPMENT & MACHINERY

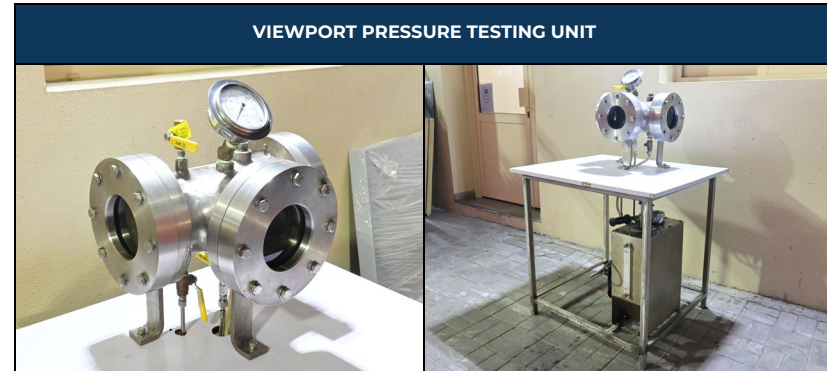

Plate Bending Machine

- Hydraulic press used to bend and form steel plates to precise angles.

Viewport Pressure Testing Unit

- Specialized setup for pressure testing of viewports and subsea components to ensure reliability and safety.

EQUIPMENT & MACHINERY

Mobile Hose Crimping Machine (Mounted in Mobility Van)

- Fully-equipped hose crimping system installed in a dedicated mobility van, allowing on-site hose assembly & repair. Ideal for quick response and remote operations.

Forklifts (1 Small & 1 Large)

- Used for lifting and moving materials across fabrication, painting, and storage yards.

FABRICATION & STORAGE YARDS

Fabrication Yard

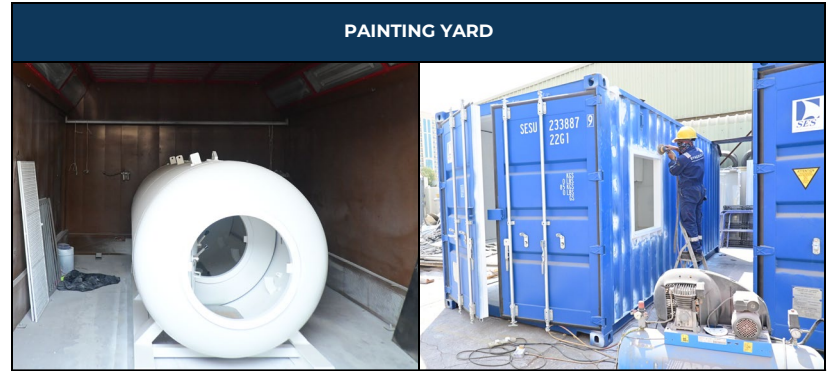

- Dedicated area for metalwork, assembly, and testing.
- Equipped with heavy-duty tools and lifting equipment.

FABRICATION & STORAGE YARDS

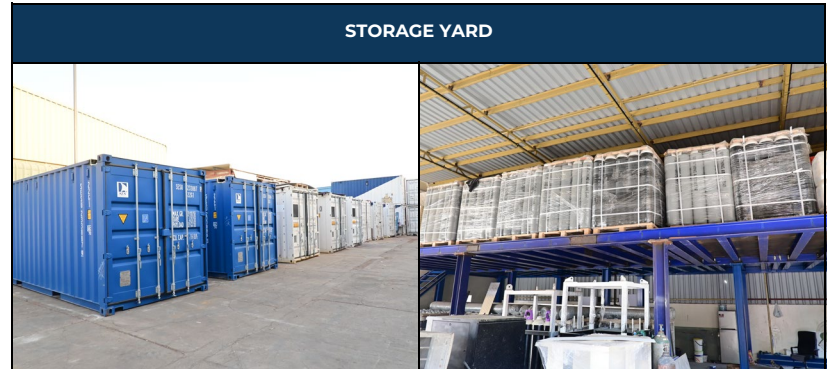

Painting Yard

- Isolated for environmental compliance.
- Ideal for surface finishing and coating processes.

Storage Yard

- Secured storage for raw materials, consumables, and finished goods.
- Regularly maintained and monitored.

ELECTRICAL DIVISION

Located within Yard 1, the Electrical Division handles all electrical services for diving and industrial systems. It features advanced workstations for panel assembly, control systems, and surface unit testing. This ensures all electrical operations are performed efficiently and safely.

TECHNICIANS DIVISION

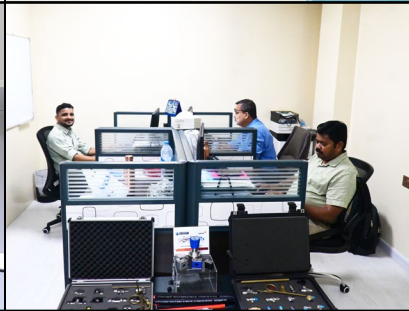

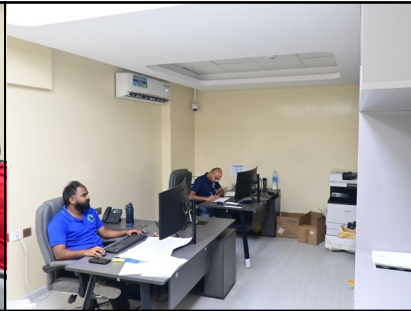

Also situated in Yard 1, the Technicians Division manages equipment inspection, troubleshooting, and preventive maintenance. Certified technicians ensure diving and industrial systems operate reliably. Their work guarantees peak performance and operational safety.

MAIN OFFICE FACILITIES

Separate administrative offices are maintained to support engineering, planning, & project management teams. Comfortable workspace for office staff, equipped with modern IT infrastructure. Includes meeting rooms, common areas, & secure file storage.

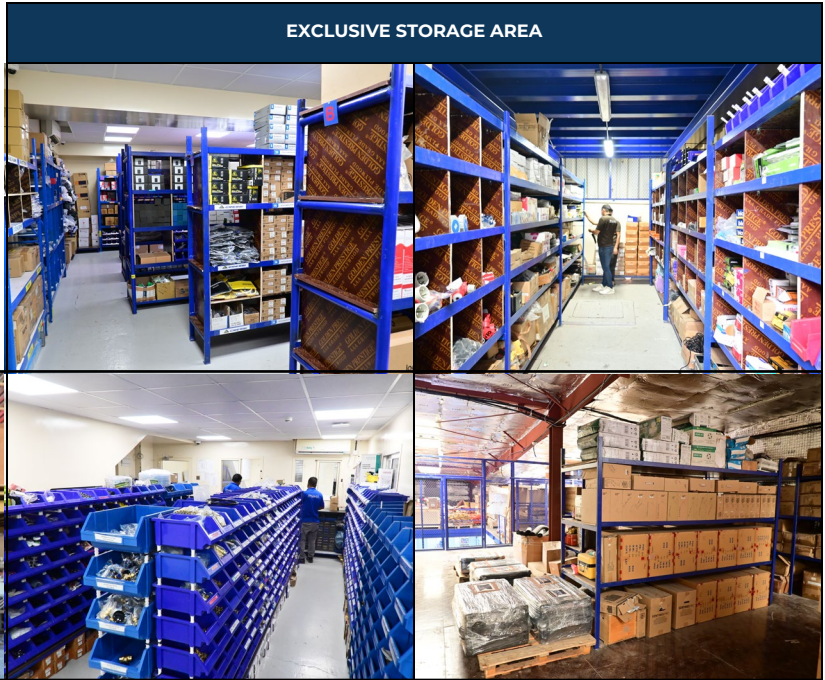

LOGISTICS DIVISION

The Logistics Division coordinates the movement, dispatch, and tracking of equipment and materials. It ensures timely delivery to project sites while maintaining safety and efficiency. This division supports seamless project operations across all locations.

STORE DIVISION

The Store Division manages the storage of spare parts, cylinders, and containerized units. It ensures organized inventory management and easy retrieval of materials for projects. Proper storage conditions maintain equipment quality and readiness.

KEY PERSONNEL

Our team includes experienced professionals with expertise in diving, fabrication, and project execution.

| NAME | DESIGNATION | EXPERIENCE | SPECIALITY |
|-------------------------|-----------------------|------------|--|
| MURUGAN KRISHNA MOORTHY | MANAGING DIRECTOR | 28+ | MARKETING & TECHNICALITY OF DIVE SYSTEM |
| VIVEK GUPTA | TECHNICAL MANAGER | 26+ | TECHNICAL MANAGER FOR DIVE SYSTEM |
| AJAZ SIDDIQUI | TECHNICAL SUPERVISOR | 6+ | FABRICATION & TECHNICAL SUPERVISION OF DIVE SYSTEM |
| SARAVANAN | ELECTRICAL SUPERVISOR | 6+ | ELECTRICAL SUPERVISION OF DIVE SYSTEM |

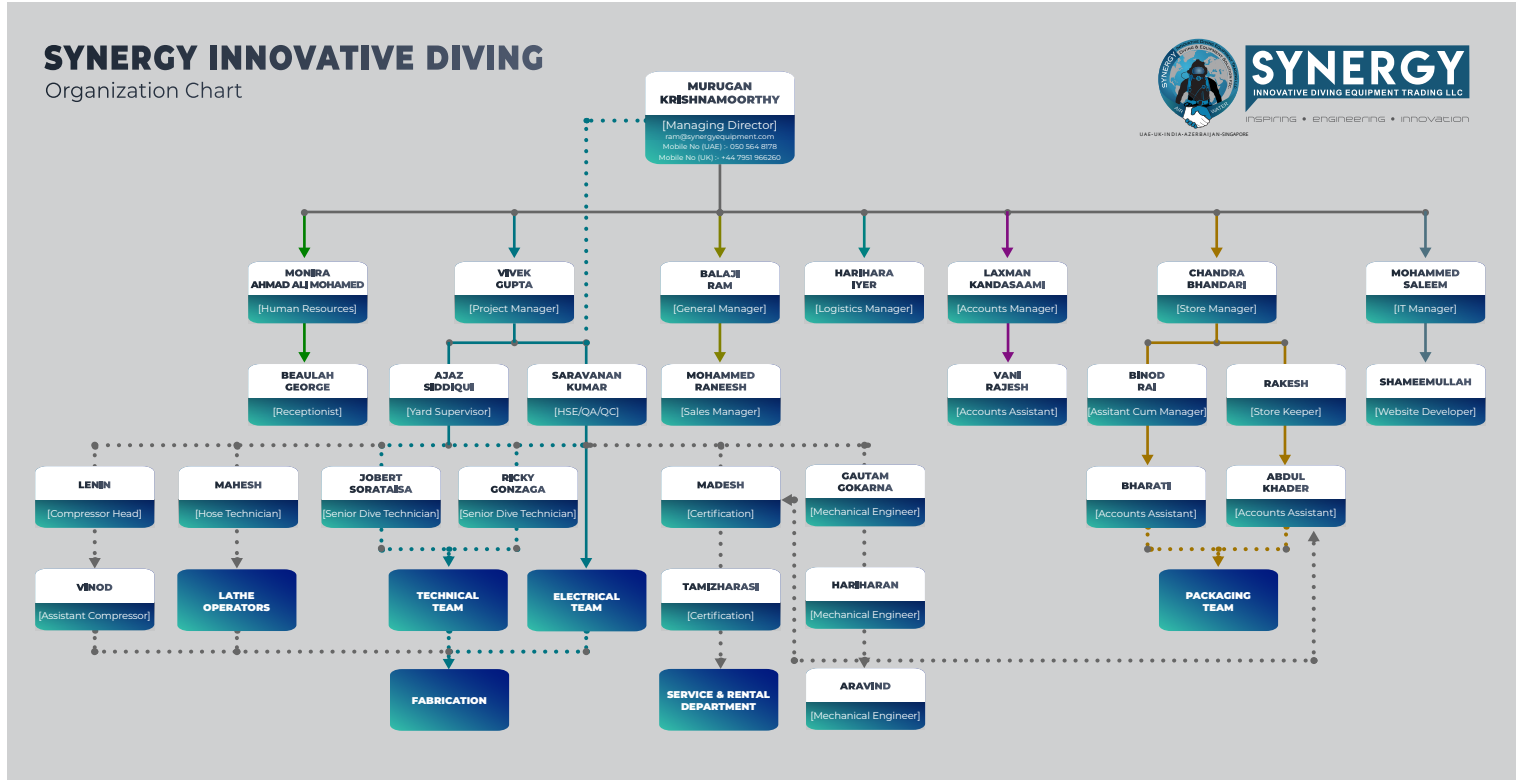

ORGANIZATION STRUCTURE

At Synergy Innovative Diving Equipment Trading LLC, our organization is structured to ensure efficient management, clear communication, and streamlined project execution.

Each department is staffed by experienced professionals specialized in their respective roles.

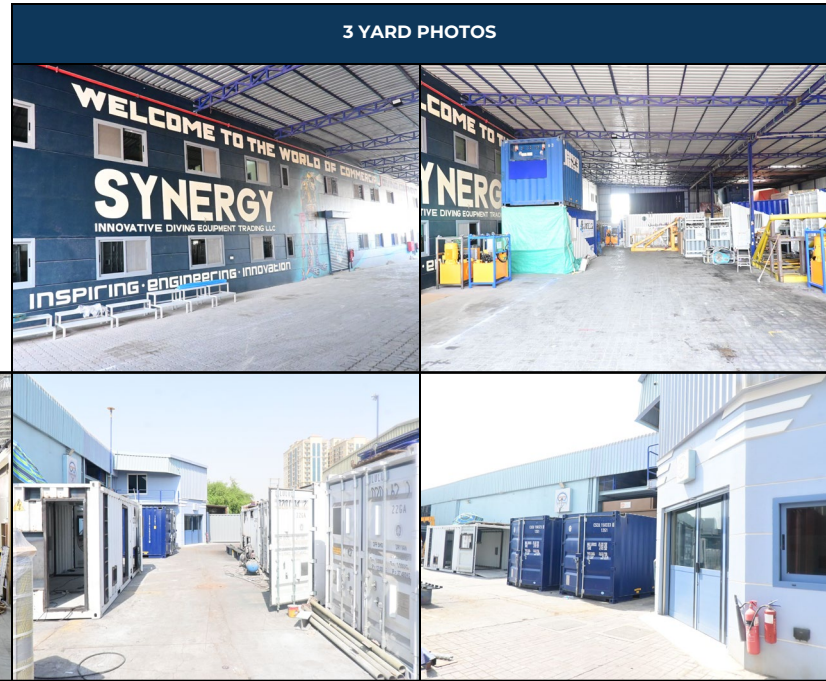

We have a clearly defined hierarchy that connects Project Management, Engineering, Operations, HSE, and Support Services, enabling us to deliver high-quality services in a safe and timely manner.

ORGANIZATION STRUCTURE

COMPANY STRENGTH

Synergy is one of the largest manufacturers and stockist of Commercial Diving Equipment with facilities in UAE(Dubai), India (Mumbai) and UK (Blackpool). With a surface area of 62000 sq.ft over 3 Plots in Dubai. All our facilities are well equipped to handle volume production of commercial diving equipment for worldwide shipping.

TRACK RECORD

SYNERGY INNOVATIVE DIVING EQUIPMENT TRADING LLC

Synergy Innovative Diving Equipment Trading LLC

Synergy Diving & Equipment Solutions FZC

Established in October **2008** in Sharjah Free Zone under the leadership of **Murugan Krishnamoorthy**, has been a leading provider of commercial diving equipment & services.

With over **20 years** of experience in the industry, **Synergy Diving** gained **IMCA** accreditation in **2009** and has continuously strengthened its presence in the Gulf, Asia, and Europe.

Synergy has supplied more than **64** diving spreads and continues to grow with its dedicated team of over **30** professionals, operating from offices in **Sharjah** and **Dubai**.

Below is a list of some of the notable spreads supplied by Synergy:

THIRD-PARTY CERTIFICATION AND TECHNICAL SUPPORT

The other strength of Synergy is the support we provide in terms of third-party certifications for diving equipment, as stipulated by **IMCA DO18**.

Under Category 4, Synergy has agreements with most of our major clients for the periodic certification, preventive maintenance systems (PMS), and technical support for commercial diving equipment.

Copies of a few agreements have been included with this bid for Irshad's perusal.

We hold all the necessary certifications from **IMCA** and other recognized diving certification bodies like **ADCI**, and we are distributors for world-renowned manufacturers of commercial diving equipment.

Kindly let us know if you require any further information, and we will be glad to provide it.

With best regards,

Murugan Krishna Moorthy
