

4JIC SOFT COPPER SECO SEALS

SYNERGY
INNOVATIVE DIVING EQUIPMENT TRADING LLC

REPAIRS • ENGINEERING • INNOVATION

The 4JIC Soft Copper SECO Seal is designed for 37-degree flare tube fittings, providing a reliable, leak-free sealing solution for high-pressure fluid and gas systems in marine and offshore environments.

Manufactured from soft annealed copper, it ensures excellent conformity and sealing performance.

APPLICATIONS:

- Diving systems & decompression chambers
- Offshore oil & gas installations
- Hydraulic and pneumatic systems
- Marine vessels and subsea equipment

KEY FEATURES:

- Suitable for 37° JIC flare fittings
- Soft annealed copper for superior sealing
- Resistance to corrosion in marine environments
- Reusable with proper inspection
- High-pressure and temperature tolerance

BENEFITS:

- Leak prevention and improved system integrity
- Reduced maintenance requirements
- Enhanced operational safety
- Long service life in harsh environments
