SYNERGY DIESEL DIVER HOT WATER MACHINE (SY-DHWU-SB38S)

Description:

The Model: DHWU-SB38S is one of the most reliable and rugged diesel fired divers hot water units available. Dhwu-sb38s can provide hot water for up to 2 divers down to 150msw. These units housed in a stainless steel frame. The unit comes with digital control panel in a stainless steel enclosure and a remote display and emergency shut-down panel that can be located in dive control. A stainless steel submersible pump is provided with the unit. The submersible connecting cables, sockets and hoses (20 meters) are part of the standard supply. The unit can be supplied with any power supply configuration optionally with multiple power configuration (ie. 110/220/440 v and 50/60 hz,& duel option)

Sr.Recommended usage1Heating of air diver suit2Heating of Mix gas diver suit3Heating of Bell diving system4Backup or redundancy diver heating system5Backup or redundancy bell heating system5Backup or redundancy bell heating system6Specifications1Flow 30-40 lpm2Heating capacity-385,000 btu (Approx.)3Stainless steel heatingcoil assembly4Stainless steel heatingcoil assembly5Stainless steel coil wrap6Oil fired two-stage burner for better control7Burner cover8Fuel tank stainless steel 120 liters9100 Liters mixing tank104 x lifting eyes & certified lifting sling11Dimensions: 1.5m x 1m x1.7m (IXbXh)Stainless steel double door electrical enclosure3Fuel pressure gauge4Electronic temperature controller 2 stage.5High temperature secondary thermostat6Low flow switch7High & low pressure switch8Remote temperature display and Emergency stop switch					
2 Heating of Mix gas diver suit 3 Heating of Bell diving system 4 Backup or redundancy diver heating system 5 Backup or redundancy bell heating system 5 Backup or redundancy bell heating system 6 Specifications 1 Flow 30-40 lpm 2 Heating capacity-385,000 btu (Approx.) 3 Stainless steel heatingcoil assembly 4 Stainless steel submersible pump 5 Stainless steel coil wrap 6 Oil fired two-stage burner for better control 7 Burner cover 8 Fuel tank stainless steel 120 liters 9 100 Liters mixing tank 10 4 x lifting eyes & certified lifting sling 11 Dimensions: 1.5m x 1m x1.7m (IXbXh) Stainless steel double door electrical enclosure 3 Fuel pressure gauge 4 Electronic temperature controller 2 stage. 5 High temperature secondary thermostat 6 Low flow switch 7 High & low pressure switch 8 Remote temperature display and Emergency stop switch	Sr.

Certifications	Provided with each hot water machine
International	IMCA D018 / D023 / D024
Manufacturer	Production, testing and electrical certificates
Class	Bureau Veritas Lifting test certificates (including MPI)
Warranty	12 month / 3000 hour standard warranty
