

ACETYLENE QUAD

SYNERGY
INNOVATIVE DIVING EQUIPMENT TRADING LLC

INSPIRING • ENGINEERING • INNOVATION

Synergy's Acetylene Quads are designed for safe and efficient storage, handling, and transportation of acetylene cylinders for marine, offshore, and industrial applications.

Built with high-strength steel cylinders and certified components, the quad assemblies provide a robust and reliable solution for demanding operational environments.

FEATURES:

- Acetylene cylinder quad assembly for industrial applications
- Operating pressure up to 250 PSI (17.2 Bar)
- Test pressure up to 450 PSI (31 Bar)
- BS, DIN, or CGA valve options based on regional requirements
- Standardised maroon/red colour coding for acetylene
- Industrial-grade acetylene gas purity of minimum 98%
- Cylinder sizes available in various diameters and lengths
- Lifting frame designed, keeping offshore standard in considered

SYSTEM ADVANTAGES

- Safe and reliable acetylene cylinder storage and handling
- Robust construction for demanding marine and industrial environments
- Designed for secure transport and operational deployment
- Compact & easy to store onboard
- Suitable for offshore, marine, and industrial applications

SPECIFICATIONS

- **Cylinder Material:** High-strength steel
- **Water Capacity:** 20–60 Litres
- **Operating Pressure:** Up to 250 PSI (17.2 Bar)
- **Test Pressure:** 450 PSI (31 Bar)
- **Valve Type:** BS / DIN / CGA
- **Cylinder Diameter:** 140–320 mm
- **Cylinder Length:** 800–1500 mm
- **Gas Purity:** Minimum 98%
- **Cylinder Weight:** Approx. 15–75 kg, depending on capacity
- **Colour:** Maroon / Red
