DIVER SKIN 5MM HARD-SOLE BOOTS | SY-BOOTS-5MM

DESCRIPTION

Diver Skin 5mm Wet Booties are designed to provide warmth, comfort and reliable foot protection during a wide range of water-based activities. Made from flexible 5mm neoprene, the boots provide effective thermal insulation while allowing comfortable movement in and around the water.

An internal lining helps retain body heat and improves comfort during extended use, while the heavy-duty side zip provides easy entry and a secure fit. The rugged, hard rubber anti-slip sole offers dependable grip on wet and slippery surfaces, while reinforced protection around the heel and toe helps improve durability and reduce wear in high-contact areas.

Combining thermal insulation, flexibility, durability and reliable traction, Diver Skin 5mm Wet Booties are suitable for diving, snorkelling, swimming, watersports and other aquatic activities where warmth and foot protection are required.

FEATURES

5mm Neoprene – Provides warmth, insulation and flexibility.

Inner Lining – Retains body heat and enhances comfort.

Heavy-Duty Side Zip – Provides easy entry and a secure fit.

Hard Anti-Slip Sole – Offers durable grip and foot protection.

Reinforced Heel & Toe – Provides added protection and durability.

Flexible Construction – Allows comfortable natural movement.

Watersports Design – Suitable for diving, snorkelling, swimming and other water activities.
